HARDING TALKS OVER CAMPAIGN WITH LEADERS

Senate Colleagues in Conference With Republican Nominee at Dinner.

VACATION IN PROSPECT

Best of Two Weeks or More Will Prepare Standard Bearer for the Onset of Work of the Next Few Months; Is Not Boasted by Anybody.

By Associated Press.
WASHINGTON, June 16.—Senator Harding, Republican candidate for President, announced today that he had a general discussion of his campaign last night at a dinner with a number of leaders. They included Senator Lodge, Republican leader in the Senate, Smoot of Utah, Brandegee of Connecticut, and Fall of New Mexico.

"We discussed the state of the union, the prospect of the Republican party, and the platform, which we adopted at Chicago," said Senator Harding. Asked about reports that the peace treaty and the League of Nations would be the principal topic discussed in his speech of acceptance, Senator Harding said he had "the feeling that public sentiment makes the paramount issue rather than the judgment of any party candidate or party manager."

Replying to an inquiry as to whether he would take part in the coming primary campaign in Ohio, the Republican nominee said he was "the farthest removed from a political boss of anybody in the world."

"That is the complaint that has been made against me in Ohio," he added. "The senator said he knew nothing of any plan for the formation of a third party and consequently had nothing to say on the subject."

With no fixed engagements or political conferences slated for today, Senator Harding hoped to make rapid progress clearing up an accumulation of mail and senatorial work in preparation for his departure from Washington for a vacation of two weeks or more. The Republican candidate had been determined where he will spend his vacation, but since he plans to devote part of his time to his speech of acceptance he intends to select a quiet place. In making a selection he will be sure that there is a convenient golf course.

Many requests to speak have reached the senator from all parts of the country but for the present, at least, he will decline all such.

FAYETTE COUNTY GAS PREPARING TO DRILL IN YOUNGWOOD FIELD

Purpose is to Supplement Supply for Coke Region Heavily Drained During the Winter Months.

Another well will be spudded in soon by the Fayette County Gas company. The latest project will be drilled on the Blackburn farm between Youngwood and Arena. The well is the second being put down by the company, the other being in the Greene county field. Good progress is being made on it.

The wells are being sunk by the company in an endeavor to get a supply of gas that will insure consumers sufficient fuel during the coming winter months. Gas consumption is heavy and the number of consumers is increasing. Last winter the supply was insufficient and it was impossible to secure additional from West Virginia.

If a well should come in in the Youngwood field it would help greatly in relieving the shortage at this end of the plant and would also help the Connellsville supply in that the gas formerly transported through here could be turned into local consumers' lines.

The rigging for drilling the well is being erected and work will go ahead steadily. There is gas in the Youngwood field, the Peoples Gas company having several wells there.

IS THRASHED BY FATHER

Patron Also Fires Shot at Fleeing Merchant But Missile Goes Wild; Alleged Offense Took Place in Store Where Mother Sent Child to Buy.

Special to The Courier.
SCOTSDALE, June 16.—James Camlin, well-known local grocer, in business in Mulberry street, was arrested Tuesday by County Detective Paul Feighner of Greensburg on a charge of assault and battery with intent to ravish, the alleged victim being Elsie May Yost, 11 years old, daughter of Mr. and Mrs. J. W. Yost, also of Mulberry street.

Camlin furnished \$1,000 bail for a hearing Thursday evening before justice of the Peace Stephen Rutherford. Since the alleged attack on the child by Camlin there have been many rumors. One of them is that the father of Elsie May took the law into his own hands and severely thrashed Camlin and then, as the factor ran, fired a shot at him, the bullet going wild.

The attack on the girl, it is said, took place at the Camlin store the evening of June 4. Mrs. Yost, it was said, had sent the child to the store to make a purchase. When she did not return promptly Mrs. Yost went to the store and is said to have found the child behind a counter after Camlin had denied she was there.

It was not until a week later, last Friday evening, that Mr. Yost learned of the affair and his chastisement of Camlin followed, according to the story. Camlin, it is said, was subsequently under the care of a physician.

Mr. Yost, a blacksmith, is employed in Connellsville.

By Associated Press.
DULUTH, June 16.—A report received early today from Virginia, Minn., was to the effect that 10 negroes were being rushed in automobiles to St. Paul, guarded by deputy sheriffs, to be placed in the Ramsey county jail for protection. A score of automobiles carrying members of last night's mob had been reported on the way to Virginia from Duluth in an effort to seize other negro employees of a circus whom they believed might have participated in the attack on a white girl here.

DULUTH, Minn., June 16.—Virtually normal conditions prevailed today on the Duluth business streets over which a mob of 5,000 persons surged last night, sweeping the police from power and getting and lynching three negroes held in connection with an attack on a 17-year-old white girl.

When two companies of Minnesota national guardsmen reached here early today after a special train trip from St. Paul they found only a damaged police station and littered streets as evidences of the mob's activity.

REGION GRIPPED BY SECOND STORM IN THREE DAYS

Deluge of Rain Last Night Accompanied By High Wind and Lightning.

SEVERAL BOLTS STRIKE

Chimney Damaged at Home in South Prospect Street, East Occupants of House Not Injured; Lightning Circuit Out; Trees Are Uprooted.

Connellsville was gripped by another storm last evening about 8:30 o'clock; the second in three days, when a furious electrical outbreak, followed by heavy rains, broke. The wind equalled in velocity that of the cyclonic storm of Sunday.

Not a drop of rain fell at Mount Pleasant and there was but a slight precipitation at Scottdale.

At Dunbar the storm was of a mild character while at Mount Braddock it broke with great intensity. At the latter place a house was reported struck by lightning. Window blinds were torn and windows shattered and a baby was rendered unconscious, but no serious damage was reported.

The lines of the Tri-State telephone company to Dunbar were put out of commission. The Bell company does not suffer from a storm so greatly now as before, most of its lines being cabled.

The Pennsylvania railroad tracks at Fayette street, Connellsville, were flooded.

During the early part of the storm electric current was off. Lights went out and patrons of motion picture houses had to wait for a time before the films could be run.

A tree fell across the lighting circuit in the north end of the city and lights were out the greater part of the evening. The cabinet of the Epworth League of the Methodist Episcopal church, meeting at the home of Mrs. Elizabeth Williams, York avenue, was compelled to resort to the use of oil lamps.

Lightning struck a telephone pole near Eligo.

Francis avenue, recently graded for paving, was badly washed. What mud and debris was not carried to the foot of the hill at McCormick avenue was deposited on sidewalks and residents were kept busy during the evening and part of today riding them off the accumulation.

A double house at the corner of South Prospect and Willis road was struck by lightning and the chimney rumples, through the center of the structure was damaged. The building did not take fire. It is owned by the family of A. R. Pickard and W. J. Pickard. The house is owned by Harry Liskamp.

A tree in Frankstown, on the Pineville, was hit by a bolt and shattered. Other trees in that neighborhood were blown down.

The West Penn power company did not suffer seriously by the storm. A number of fuses in transformers were blown out and some street lights were in darkness for a time. All the damage of Sunday's storm had not yet been repaired when the second electrical outbreak made it necessary for them to be out all night again.

In the downtown district, especially in South Pittsburgh street, the lightning played over the wires. Sparks and flashes were witnessed by a number of persons.

EXPORT COAL EMBARGOED

Accumulation Is Cause, It Is Understood Here; Permits Cancelled.

Effective today a number of special permits to ship coal to Curtis Bay for export were cancelled and the embargo that has been in force for the past two weeks is now in effect. This announcement was made at the Baltimore & Ohio offices. It was understood here that the embargo had been declared on account of accumulations at that port and not because of any action to stop export of fuel.

Some local men look for an embargo on export of coal to relieve the shortage of fuel in New England and the West. Complaint is being made by states in these sections of the country to the government and press dispatches carry information to the effect that the embargoing of all exports will be considered.

The embargo now in force affects the majority of coal operators in this district as most of the coal goes to Curtis Bay.

A Prominent Nurse Testifies

Leontown, Pa.—"I was all broken down in health, suffered from displacement. One of my friends came to see me and advised me to take Dr. Pierce's Favorite Prescription. I began and also used the 'Golden Medical Discovery' and the 'Pleasant Pellets.' I wish very much to state that I have been a widow for several years and always recommended the 'Favorite Prescription' to every woman to take during pregnancy and afterward, and they all got along so nicely. It surely is a God-send to suffering women. It also carried me through the critical time of life and I had no trouble or distress whatever. I keep it constantly in the house and will not be without it."

MRS. JENNIE RINKER.
When a girl becomes a woman, when a woman becomes a mother, when a woman passes through the changes of middle life are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances.

At these critical times women are best fortified by the use of Dr. Pierce's Favorite Prescription, an old remedy of proved worth. All druggists, Leggett's, or send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10 cents for trial package.

DYSPEPTIC DIET NO LONGER NECESSARY

The old plan of prescribing strict diet for dyspeptic and stomach sufferers is no longer popular among progressive medical men, partly because of its weakening effect but mostly because of the discovery that nearly all stomach trouble is due to excessive acidity. The organs of digestion are themselves all right but acids in the stomach irritate and ferment the delicate stomach lining and cause sourness and premature food fermentation. The logical treatment, therefore, is to get rid of the acid, when natural painless digestion will follow.

For this purpose a teaspoonful or four pills of Biura and Magnesia in a little water neutralize the acid, stops the fermentation of the food, dispels the gas and thus permits the stomach to proceed with its work without hindrance. Owing to its prompt and certain action Biura and Magnesia, which is obtainable from any druggist, in either tablet or powder form, should always be used in preference to the other forms of magnesia, such as the milk, citrate, carbonate or oxide. Stomach sufferers are advised to try this plan for three weeks and note results.—Adv.

Here is Thoroughbred Fuel

If gasoline could be identified by a pedigree—Atlantic would have a long list of quality points. But it is known by its performance, its economy, its vigor and life and action. Atlantic is the high-stepper that makes rubber spurn the road.

There's go in Atlantic—steady, ready go, that keeps the engine full of power which keeps flowing while you keep your foot down. Every drop of Atlantic makes energy because it all burns. It vaporizes fast, so you need only a lean mixture—lots of air and little fuel.

Atlantic burns cleanly. It doesn't foul spark plug nor the engine. It is so completely consumed that you need have no fear of a thin and devitalized lubrication where Atlantic is used.

Once your carburetor is adjusted for the season, you can forget it with Atlantic because it has the range that compensates for weather changes and atmospheric conditions.

Yes, sir, Atlantic is thoroughbred gasoline and it's used by the knowing motorists and truck-owners. They've found out by experience that the place to get the right fuel for gasoline motors is the Red Pump where the Atlantic sign says

SELLING JAMAICA
GINGER VIOLATION
OF LIQUOR LAWSFirst Conviction in Cases Re-
turned Tuesday in
Uniontown.

TAXI-DRIVER GUILTY

Sale of Jamaica ginger was not the only violation of the Brooks liquor law in a verdict returned Tuesday evening before Judge E. H. Reppert in Uniontown. James Frank Williams and Roy Williams, guilty of selling liquor without a license. The case was the first of a number to be tried during the remainder of the week, the prosecution growing out of the Jamaica ginger traffic in Uniontown and vicinity. They are held by the district attorney's office to be the most important submitted to jury this term of court.

The case went to the jury upon the evidence submitted by commonwealth witnesses and the court's charge. No evidence was submitted in behalf of the defendants and no arguments were made either from the viewpoint of the state or of the defendants. Judge Reppert in his charge told the jury that the only question it should determine was whether Jamaica ginger was an alcoholic liquor.

Representation of the commonwealth case was met by constant objection from the defense and most of the afternoon was spent in arguing points of law. Confiscation of the stock of Jamaica ginger in the Williams collection in West Main street, Uniontown, was held by the defense to be an unlawful seizure. Answering that point the commonwealth offered testimony to show that the "jake" had been in the exclusive custody of County Detective John J. Smith from the time of its seizure as evidence. District Attorney William A. Miller was called as a witness on that point. It was the first time in many years in the Fayette county court that the district attorney has testified in a criminal prosecution.

Taxi-driver Gully. Tony I. Tassone, a white, a taxi-driver, was found guilty of having made a criminal assault upon Agnes Janura, a passenger, on April 25, in a verdict returned by a jury Tuesday afternoon before Judge J. Q. Van Swearingen. The defense claimed mistaken identity.

Following the assault the prosecuting witness took a unique way of identifying the defendant by her assailant. When she had a moment alone in the car, the witness testified, she transcribed the license number of the car with grease prints upon her undergarment, and in that manner was able to trace his identity. She said at that time she did not know his name.

Superintendent Lovelock. Controversy between the Brown family of Waterbury and the Genuine Connellsville Coke company over a railroad right of way found its way into criminal court Tuesday when Albert Pickard, superintendent of the company, was tried upon a charge of assault and battery preferred by Oliver E. Brown and E. K. Brown. The jury returned a verdict of guilty. The case held forth all day in court room No. 3 before Judge J. C. Work.

The prosecution charged that Pickard assaulted the two principal witnesses on Sunday morning, May 23, during a controversy over their respective rights as regards the use of a railroad side track running over the Brown property. The defense contended that Pickard was within his rights in preventing the Browns from interfering with his use of the siding.

NAME "TERMINAL COMMITTEES" TO MOVE FREIGHT

Commerce Commission to Co-operate With Shippers and Carriers.

PROVIDE EARLY RELIEF

The Expectations Will Generally Center All Matters of Operation and Transportation; Act as Advisory to Commission on Car Service.

WASHINGTON, June 15.—The Interstate Commerce Commission, with the cooperation of shippers, carriers and the railroad and public utility commissions, has arranged to establish "Terminal Committees" at certain designated important terminals throughout the United States, whose duty shall be to keep the commission advised concerning the transportation situation in and about terminals.

The personnel of each terminal committee will consist of a representative of the carriers, a representative of the shippers in the vicinity of the terminal, and a representative of the railroad, or public utility commission, if the latter desires to be represented; and an employee of the Interstate Commerce Commission, who is to be designated acting chairman of the committee.

The committee will communicate through its chairman with the Interstate Commerce Commission and, without delay, will establish cooperative relations with the Commission on Car Service Committee now being organized by the railroads at the terminal designated.

The committee shall act in an advisory capacity in connection with the operating work of the Commission on Car Service Committee of the railroads and through such committee shall reach the individual railroads in the terminals.

The terminal committee should bring to the attention of the Interstate Commerce Commission any matters deemed important, and any matters upon which the exercise of the mandatory powers conferred by the Transportation Act upon the Interstate Commerce Commission seems desirable or necessary, together with its recommendation as to the specific action to be taken.

The committee should work in close contact with the shippers, and should endeavor to secure cooperation and adjustment to overcome any conditions which impede prompt and efficient transportation.

The subjects which it is important at this time to investigate, and consider and as to which the committee should concern itself generally:

1. To consider all matters of operation and transportation which will in any way tend to increase the efficiency of car supply, or motive power, or transportation, or to relieve or maintain congestion or delay at the terminal or upon the line.
2. To see that the routing or re-routing of traffic is in conformity with Service Order No. 1, of the Interstate Commerce Commission, and to advise the commission of violations of the order which may come to the notice of the terminal committee, as well as violations of any other service orders entered or to be entered by the commission.
3. To study the embargo situation and make suitable recommendations with respect thereto.
4. To make such recommendations in conjunction with the commission on Car Service Committee as to the issuance of permits as developments may show to be necessary or advisable.
5. To use every effort to prevent the abuse and misuse of equipment, and especially coal, refrigerator, livestock, and grain-loading cars, and to use every effort to see that the use of these cars for the time being is confined as far as is reasonably practicable to the primary purposes for which they were built.
6. To use every effort to obtain the most prompt loading and unloading of equipment by shippers and consignees, and to secure the maximum possible loading of cars.
7. To use every effort that orders for placement of cars shall conform to the actual necessities of the proposed movement and to discourage waste or needless transportation during the present emergency.
8. To cause a reduction in the use of equipment in transfer service when the movement can be made by motor truck, wagon or other means.
9. To keep advised with respect to the situation in the terminal as to operating conditions, including the quantity and efficiency of labor, or lack of switching power, delays in interchange of equipment, delays in placement for unloading and pulling.

CRAGO BEATEN

Philadelphia Vote Responsible For Congressman Being Nosed Out.

HARRISBURG, June 15.—The defeat of Congressman Thomas S. Crago for one of the four places on the Republican ballot for Congressman-at-large was accomplished by the Philadelphia vote. Without the Philadelphia vote, Crago has 210,263 votes against 185,865 for Walters and 184,027 for McLaughlin. The Philadelphia vote gave McLaughlin 122,818; Walters 90,202 and Crago 61,025.

These votes allowed Walters to win over Crago by over 4,000 votes. Congressmen Burke and Garland were many thousands of votes ahead of the other candidates.

Millionaire Oil Magnate Is Outwitted By Local Man

J. C. Arnold Obtains for Trifling Sum Asset for Which Millionaire Offered a Million.

J. C. Arnold, printer and linotype operator, of Huntington, W. Va., has, as he says, the distinction of putting one over on the country's greatest oil magnate. In an interview Mr. Arnold tells the full details in a most interesting manner.

"About a year and a half ago," says Mr. Arnold, "I began having attacks of stomach trouble, which continued getting worse until my liver and kidneys were so affected that I was forced to quit work. I had been working night shift on an Akron paper and shifted without avail. I was taking medicine continually, first one doctor and then another, but kept getting worse. 'Every time a friend suggested a remedy I tried it, until at last some one recommended the Reese Formula R-11. By this time I had given up hope, but began taking the Reese Formula R-11. I had no confidence in it or anything else. Imagine my surprise when after taking about half the first bottle my condition began to improve. I continued taking it and before finishing the third bottle I was completely restored. I am again working and feel better than I have for many years."

"The Reese Formula R-11," continued Mr. Arnold, "cost me a dollar and a quarter a bottle, and considering the fact that a millionaire oil magnate offered a million dollars for a relief from stomach trouble I think I am some financier."

"But then people don't think they can get relief unless it is expensive. All I can say is that it only costs one dollar and twenty-five cents, the price of the Reese Formula R-11, to relieve stomach trouble, for my case has proven it."

If you wish further information, write direct to our Medical Advisor, given up hope, but began taking the Reese Formula R-11. I had no confidence in it or anything else. Imagine my surprise when after taking about half the first bottle my condition began to improve. I continued taking it and before finishing the third bottle I was completely restored. I am again working and feel better than I have for many years."

The Reese Formula R-11 is sold in the Connellsville Drug Company.—A Connellsville by all druggists, or adv.

LEISENRING 1 CHALLENGES TROTTER TO SERIES GAMES

Meeting Between Rival Teams
Soon Is Considered
Certain.

UNIONTOWN BOUT SHIFTED

Those two rivals of the Frick League, Trotter and Leisenring No. 1, will undoubtedly soon get together. The Leisenring team has challenged the Trotter team to a series of three home and home games and as soon as Trotter accepts the fans hereabouts will witness some classy ball. The challenge was an open one and Trotter will no doubt be overjoyed to know that the Leisenring team has at last accepted to meet him. Trotter has recently sought a game with the Leisenring team with its rival for some time past, but without success.

Smithfield Here Today.
The Baltimore & Ohio team of this city and Smithfield will play their second game of the series today at Fayette Field. This game was arranged to take place yesterday afternoon, should the local cop this game they will be the undisputed champions of the Connellsville division. Captain Francis' line-up will be: Sheetz, pitcher; Lohr, pitcher; H. Fisher, second base; C. Francis, middle field; Claxton, left field; Jones, catcher; Kenner,

right field; Barrett, insider; Snyder, third base; Hosen, first base; E. Fisher, shortstop.

Colonial at Trotter.
The fast Trotter team plays the Colonial No. 3 team on the home grounds this afternoon. This should prove to be another fast game, as Trotter's pitchers are well rested and will be able to show their usual speed. Tomorrow afternoon the Trotter boys will play the Lambert team. This also being played at Trotter. Both games will be called at 5 o'clock.

BASEBALL CHIRPS.
There will be no game at Fayette Field Saturday unless the Smithfield team defeats the local B. & O. tusslers in the game today. The Independent will play at Fayette Field until the following Saturday, when they go into action against the fast Murdocks.

Fully the Greensburg pitcher, was a visitor here yesterday afternoon. Felt was tried out by the Independents in their first practice game, but fell short in making the local big team. He informed the writer that he is going in great style in his home town, winning the majority of his games.

Let's trust there will be no hitch between Leisenring and Trotter and that these two teams will soon come together.

TOMMY PHILLIPS

PHILLIPS DEMANDS NEUTRAL REFEREE

The Dixie theatre, Uniontown, will be the scene of the big boxing card arranged to take place in that city on next Friday night. The Fayette A. C. decided to stage their show at this place instead of the West End theatre. Tommy Phillips, who was signed to meet Johnny Donnelly, has notified the club that he will not stand for any referee from Uniontown operating in his act with the county squire. Phillips wants an outsider, either a Connellsville man or one from Pittsburgh. The club will not stand for any Pittsburgh referee and Connellsville has had three men who can fill that slot, being Tony Polano, Billy Turner and John Polack.

No doubt Donnelly will accept on the request of the out-of-town, as Johnny's more than anxious to get another crack at the heavy hitting Tube City boy. Donnelly is out to win this scrap as decisively as possible and will do his utmost to make a favorable impression before the home crowd, it being his first bout before a Uniontown audience. The boy from the sea is a big, always a dangerous man in the ring. He has a heavy wallop and if it ever connects with Donnelly it's certain he'll be out of Uniontown.

The semi-final bout between Jackie Fromme and Patsy Young is attracting as much interest as the star bout of the evening. Fromme is a veteran of the game and at all times puts a little worth going a distance to see. Without a doubt Young will leave a favorable impression with the fight fans.

Local interest in the bouts centers in that between Al Miller of Trotter and Johnny Polack of Dawson. Johnny is a member of Company D where he is well thought of on account of his boxing ability. Miller will have a big following of his friends at the ring side, as he wants to win over the aggressive one from Dawson.

Freddie Garrow will meet Fonger or Brown in a six-round bout.

DEMPSEY NOT A SLACKER.
SAN FRANCISCO, June 16.—W. L. Harrison (Jack) Dempsey, the world's heavyweight champion, was found not guilty on a selective draft evasion indictment by a jury in the United States District court here Tuesday. The jury was out 10 minutes and took one ballot.

Judge M. T. Doody's instructions to the jury occupied 20 minutes. In his brief the three counts in the indictment against the champion, who fought with the champion, were thrown out, with the jury and jury could not obtain a verdict.

GAMBLING IN EARLY YEARS OF BASEBALL

Intimately Identified With Game
in the Late Sixties.

Much Harm Was Done to Sport by
Proponents of Present-Day Follow-
ers of Race Track Through
Element of Chance.

The old Cincinnati team was the pioneer salaried club of baseball, though there is a conflict of authorities as to the exact year in which the team went under salary. Edwin A. Gowey writes in *Leila's*. In the Spalding official baseball guide the year is given as 1869, while Albert C. Spalding, in his book of memoirs, "Baseball," gives the year as 1868, and cites enough detail to make it evident that the latter date is correct. Anyway, it was in 1868 that the Red Stockings made their phenomenal record. The official records give 81 games won, none lost, and one tied with the Hymnmakers of Troy, N. Y. There is no doubt about the tie game and that no contests were lost, but both Mr. Spalding and Harry Wright, the heads of the team, give 80 as the total of games won.

Frank's account has little to say, particularly the reminiscences of Mr. Spalding, who played a leading role in putting the game on its feet, later saving it from the gambling and commercial element, and did much to popularize American sports generally, it is gleaned that gambling was intimately identified with the game in the late sixties, much harm being done to the sport by the proponents of the present-day followers of the racetracks and other places affording opportunity for financial gain through the element of chance.

VICTORY REFUSED BY BOXER

Young Cohen of Boston, Protested Decline in His Favor by Buenos Aires Referee.

The unusual circumstance of a boxer declared the winner of a bout protesting against the decision in his favor was witnessed at Buenos Aires recently at the close of a ten-round session between young Cohen of Boston, billed as featherweight champion of the American Athletic Club, and Julio Perez, featherweight champion of Argentina. The referee at first gave the decision to young Cohen, but upon the latter's protest that he was not entitled to a victory, the official declared the bout a draw and cheer from the Argentinian audience.

MILLER HUGGINS TURNS HIMSELF TO THE LEFT AND BECOMES STAR

Miller Huggins, manager of the New York Yankees, owes his entire success to being able to remake himself.

When a player has played a certain position for years and has become an expert at it, he is in all this time and then decides that he had better change his position and batting position, he has several factors to contend with. He must change his angle of vision, he must build up new muscles and unlearn old ones.

What He Accomplished.

After three years of trying this was what the diminutive manager of the Yankees was finally able to accomplish. He had been playing with the St. Paul club of the American association for some time, when he decided that to become a major leaguer he would have to change his playing methods. He realized that he was not good at any position but second. He could not play at short or third or first, nor could he throw across the diamond. He was not a success at any position in the lineup except as lead-off man. To be a lead-off man he decided to change from the right to the left side of the plate.

Being a right-handed batter he had developed his right leg to carry the support of his attack. He had to undo this and make his left leg muscles do for him what his right had.

To change he started out to be a southpaw in everything he did. He threw the ball, chopped wood, drove spikes and ate with the left hand. He worked at his transformation for three years and finally received the recognition he was after. He got on in the majors.

Reversed Himself.

Huggins in his last day was not a good thrower yet he became a great second baseman. By using his brains over time he learned that standing in a position nearer left field than that occupied by other second basemen would allow him to come in on almost every ball hit to his territory and get it with his left hand. He was rarely forced to go to his right on a play and always was in a position to get the ball to first.

JOE WILHOIT TO BE WATCHED IN MINORS

Outfielder Appears to Be Too Good for Bushes, Yet Not Quite Good Enough for Big Show—Others Discard Make Good.

Baseball students are watching Joe Wilhoit, recently sent to the Toledo club of the American association by the Boston Red Sox. Joe seems to be just a little too good for the bush leagues, yet not quite good enough for the big show. Some students of the game believe he will again land in the

DOCTOR'S THRILLING STRUGGLE WITH DEATH IS VICTORIOUS

Fierce Battle with Grim Spectre Brings Health to Dr. Reese and a Message of Hope to Millions of Sufferers

After Dr. H. V. Reese had suffered for 10 years and been told by the greatest stomach specialist in the country that there was no hope for his recovery, he determined to spend his remaining days in experimenting upon himself in an endeavor to develop a remedy for sufferers from stomach, liver and kidney troubles such as himself.

Dr. Reese's condition at this time was so critical that it was impossible for him to retain food in his stomach, it being necessary to wash that organ out two or three times a day. This in addition to the severe liver and kidney trouble which generally accompanies stomach trouble.

After months of heart-breaking failure and with his condition growing worse, Dr. Reese finally hit upon the Formula which is now known as The Reese Formula R-11 that completely cured his health.

This happened in 1908, twenty-one years ago. Today at the age of 73 years Dr. Reese weighs 175 pounds.

The Reese Formula R-11 is sold in Connellsville by all druggists, or at the Connellsville Drug Company—Adv.

What a lot of argument there used to be about a woman driving an automobile

TODAY she can "make a train" or fix a tire as well as anybody.

As soon as a luxury becomes a necessity the point of view changes.

Two or three years ago you would have listened to more varying opinions about tires than you could shake a stick at. Mileages, construction, treads and whatnot.

It's different now. Tire users are working towards a unanimous feeling.

You express it one way—the man down the street another. But sifted down it amounts to this:

That the only way to settle

your tire problem is to get a tire of known value and stick to it.

We recommend and sell U. S. Tires because their value is known.

There's no guess about it.

It was the U. S. quality policy which led to the perfection of the straight-side automobile tire, the pneumatic truck tire—two of the greatest additions to tire value that have ever been made.

As representatives of the oldest and largest rubber concern in the world, we are in a position to tell you something about tire values. Come in some day and talk to us.

For ordinary country roads—The U. S. Chain or U. S. Ply.
For front wheels—The U. S. Ply.
For best results—everywhere—U. S. Royal Cord.

THE SISISSION.

"THE VIRGIN OF STAMBOUL." With Priscilla Dean in the principal role, is being shown today.

"The Virgin of Stamboul," produced by the Universal-Jewel as a master-feature, was written especially for Priscilla Dean by H. H. Van Loan, and the author has endeavored to paint an animated picture of "wickedest" city in the world. Director Tod Browning has faithfully followed his story and has reproduced that painting in life-like scenes.

In the role of Sari, the beggar girl of Stamboul, Priscilla Dean is said to have achieved her greatest triumph. The part permits her to exercise all those thousands of individual mannerisms which have made her the pet of millions, and the producers have surrounded her with every accessory to make "The Virgin of Stamboul" a triumph. Turkish city has been reproduced with marvelous fidelity for the film, and dozens of other scenes have been visualized and form part of this picturesque production.

THE PARAMOUNT.

"LOCKED UP."—The story of a Japanese girl, in today's leading attraction. The story opens in a club room in an American city where Henry Stannwood, in a brawl over a game of cards, shoots a man, makes his escape. Posing from justice his wanderings bring him to the island of Hilo. There he breaks into a cottage in search of food. It is the home of Lotus Blossom, a Japanese girl who teaches a native school. She nurses him back to health and

strength and they are eventually married. The man's real nature soon asserts itself and he deserts Lotus Blossom.

His escape from the island, the changing of clothes with a body which had been washed ashore, his marriage to an American girl in San Francisco and Blossom's real romance which is interrupted when she finds that her husband is married to the woman who had befriended her, are told in a series of gripping, tense situations that end in a breathless climax.

THE ARCADE.

Tom Casey's Popular Players, scored a big hit Monday and Tuesday in Polly of the Circus. Mildred Jerome, of course, is the outstanding feature of

the show, her acting being very striking throughout. Howard Wyeong, as Rev. Gordon, interpreted the part very cleverly.

Today's offering will be "A Stitch in Time," a comedy drama in four acts with the same cast as appeared in "Polly of the Circus." Special scenery and lighting effects will be used. Vaudeville acts are given during the intermissions. Pictures will be shown before and after the show, as usual.

Supplying Need for Sweaters

TAKING it for granted that some day a little warmth giving in the form of sweaters will be needed, especially at summer resorts, and remembering the fact that many sweaters have been added to the wardrobe of a good many people, it is not surprising that a greater number of substitutes for the sweater find a place in the display at the shops, merely by way of variety. The favorite among these substitutes is the sweater coat usually made of tricellette in the knitted sweater of jersey cloth in silk or wool. Both of these materials are furnished with coats that do double duty when quite as often with separate coats as with those that belong to the sweater. A favorite sweater coat in collar and cuffs and in bands on these coats.

Another substitute for the sweater is the wide scarf of knitted wool which has already made itself familiar and is shown in colors gay or neutral to suit all tastes. It is more or less wide—usually more—and quite long. Some of its ends are provided with cords to hold it in place about the neck or thrown about the neck. The belt is not needed. These scarves are very cozy.

Among the new arrivals in sweaters are the patterns in knitting are great—colorful and the lace weaves

in tricellette are popular for sweater coats. A young man belonging to the "summer season" comes the "slip over, sleeveless sweater, knitted to hug the figure, like the model shown in the picture. It has a girde to match with cords finished with little tassels; and an angora collar in contrasting color. Another substitute for the sweater is the wide scarf of knitted wool which has already made itself familiar and is shown in colors gay or neutral to suit all tastes. Carved jade pendants are fashionable hung from orange cords, with occasional black beads on them.

WITH THE FUNNY MEN

Passive Popularity.
"Aren't you afraid some of the things you say will make you unpopular at home?"
"No," replied Senator Sorghum. "A little unpopularity won't hurt. For a while I was getting to be popular everywhere. It was becoming a wonder whether I wasn't becoming too popular and too much so."

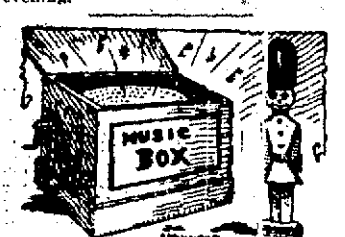

Still Busy.
"Anyhow we put that old handkerchief out of business."
"No, we didn't," said Uncle Bill Belding. "He simply turned the entire counter over to the things he used to serve for free lunch and went right ahead reaching for all the change in town."

Exacting.
"John, the new cook is going to leave."
"Too much work?"
"No. Her reasons are social. She doesn't like the drawing room decorations and finds the piano very much out of tune."

Interme Chilli.
"So you have made several polar explorations?"
"Yes."
"What's the coldest experience you ever had?"
"Last night's, with the audience at my lecture."

Optimism.
"Your true American is always an optimist."
"Yes," replied Mrs. Cayenne. "But his isn't a lazy optimism. He is able to smile the sweetest when he is prepared to fight the hardest."

Fickle Applause.
"Did your speech get prolonged applause?"
"Yes," said Senator Sorghum. "Almost as much as the jazz orchestra that played at the reception the same evening."

A NATURAL CONCLUSION.
Toy Soldier: My, there must be a party going on in that house.

Cornered.
She asked the person to guess her age. A thoughtful thing, for she said: "The good man dared not tell a lie. Nor dared he tell the truth."

His Type.
"The showmaker is just the type of man the aristocrats prefer in the masses."
"How is that?"
"Because the sole intent of his labor is to support his upper."

These Days.
Hicks—I say, waiter, where's my coffee?
Waiter—You just drank it, sir.
Hicks—What? I thought that was the soup!

Applying the Principle.
"See here, I lent you six dollars and you have returned me only one."
"That's all right. Everybody knows one has the same value as six any day."

Their Class.
"One regiment had several men in the ranks who were the sons of millionaires."
"Ah, then, they were the real dough boys."

His Preference.
"That lawyer is a great dog fan."
"I should think his fancy would run to cats—something more in the feline species."

Their Need.
"Prima donnas have to charge high salaries."
"Why do they?"
"Because managers want their services for a song."

Her Humor.
"Nature perpetrated a joke on the dog when she made him."
"In what way?"
"In making one end of him a scent of gruvity and the other end a wag."

Its Species.
"I love you for yourself alone, Miss Millyuns."
"That is a loan on which you can always borrow trouble, Mr. Cashunter."

Its Sort.
"Here's that messenger bird story all jumbled up."

Perfection's Price In Tire Building

A tire-maker's first problem is to decide how much he will pay for the money. This, and every other question in the building, depends upon policies.

A super-tire, such as The Brunswick, can be made only by a concern which knows well and appreciates that there is nothing exclusive in the tire industry except high standards.

Since 1945 the House of Brunswick has held first place in every line it entered. Brunswick Tires, as more and more motorists come to know them, will certainly be awarded these second place held only by the superline.

Motorists who buy one Brunswick usually adopt it for complete equipment. Yet this is not strange, since the first one so completely proves its superiority.

If the name of Brunswick certifies to you, as to most men, an extraordinary tire, at no higher price, would it not be good business to test one or two Brunswick Tires?

The Flag of the Mayflower.
The proposed celebration in Manchester of the tercentenary of the sailing of the Mayflower may render it of interest to direct attention to a curious anachronism. In the magnificent fresco in the palace of Westminster, in which the departure of the Pilgrim Fathers is depicted, the Mayflower is flying a Union Jack. The Union Jack, as every one knows, did not come into existence till the passing of the first Act of Union in 1706—one hundred and eighty years after the departure of the Pilgrim fathers. One of the formalities connected with the Irish Union was a new standard combining the three orders of St. George, St. Andrew and St. Patrick, which was hoisted in the capitals of England, Scotland and Ireland.—Manchester Guardian.

The Cause.
"Why do actors call a good role a velvet one?"
"Because they expect a pile from it."
